Erie Insurance, Erie, PA

About the Project:

I joined Erie (Value Momentum Partner) in 2016 as UI-UX Designer and have worked on multiple projects within Erie for the Commercial Team. I have adorned the roles of supporting design leads as well as managing various projects as lead designer. I was engaged in the building of a proprietary internal insurance quote and application system. I also collaborated extensively on style guide monitoring and testing with BA's, Devs & QA's.

Role:

UI-UX Designer

How this scenario works is:
If user lands on coverage page for the first time, we automatically show the mine subsidence modal. If user saves without answering the question - throw a field level error.

Upon "Cancel" user sees the red x icon next to mine subsidence.

About the Project:

I am the in-house UI&UX Design expert for the B&H Mobile Labs. My priorities and focus are primarily on mobile user experience design. I worked onsite at our vendor studio where development was done and managed redesign of major homepage, product pricing, checkout and chat-bot help center screens. I also worked on maintenance projects for both iOS and Android apps.

The image displays four variations of a product detail screen for a Nikon COOLPIX AW130 Waterproof Digital Camera (Yellow). Each screen is shown in a mobile device frame with a status bar at the top (9:41 AM, 100% battery) and a navigation bar at the bottom (Add to Wishlist, Add to Cart).

- Default:** Shows the product image, name, price (\$2,296.95), and shipping information. It includes a 'Shipping' section with 'Free Expedited Shipping' and a 'Savings' section with 'Instant Savings Available'.
- Slashed Pricing:** Shows the product image, name, and a crossed-out price (\$2,596.95) next to the current price (\$2,296.95). It highlights 'Instant Savings \$300'.
- Lengthy price:** Shows the product image, name, and a price of \$280,200.00.
- Preorder:** Shows the product image, name, and price (\$2,296.95). It includes a 'New Item, Available for Pre-order' badge.

Each screen also features a 'Shipping' section with 'Free Expedited Shipping' and a 'Savings' section with 'Instant Savings Available'. The 'Highlights' section lists features like '200GB Storage Capacity', 'Class 10 / UHS-I', and 'Water / Temperature / Shock Proof'. The 'Overview' section describes the camera's multimedia capabilities.

Neiman Marcus-INTL, 2013

About the Project:

Neiman Marcus went for a major enhancement by creating a separate website for China along with local language and currency support for other international customers. I was actively involved in designing and building the China website (as per their then current style guide) along with updating the overall shopping experience for international audience. This had an impact on Homepage, Product Detail Page and the Checkout Process.

Role:

Lead visual designer for Neiman Marcus International project team

Eventyme, 2015

About the Project:

Eventyme is a event management tool that allows users to handle events of varying complexity. Anyone can create events easily using the advanced 'create event' tool that I created exclusively for this project. I directly worked with the CEO for this redesigning project and contributed towards building the branding, website & admin section of the product.

The Amazing Spider Man 2

Sony Pictures, 2014

SmarTr is an iPhone app and a web responsive desktop application that will be used by Sony territorial administrators to plan and organize digital marketing initiatives around the world. I worked as lead visual designer interacting with the program manager and business team on a daily basis. I got excellent feedback for my contribution for this project from the Sony Picture program manager.

American Airlines, 2012-2013

About the Project:

I am the design lead and managed an offshore team of 4 members for this project. My day to day responsibilities include working with the UX director and identify tasks for each sprint to help transition the American Airlines website from legacy to new branding. Lead and worked with front end developers both onsite and offshore to make sure the new brand style guide is implemented the right way. Also collaborated with other in-house designers on re-branding project sprints.

Notes

1 Clear and concise title

Instead of calling out "error" or apologising upfront, it would be a nice to show up a clear title in passive voice that is focused on user action.

Depending on the copywriting styleguide & branding verbiage, title can be passive or active.

2 Define the problem

State possible reasons on "why" this page is surfaced.

3 Provide solution

Provide possible resolution that can direct user to fix the problem or help land on the right page

4 Send automatic report

To better track what lead users to land on "404" page, it would be great to implement a solution that can automatically send us reports when an incident occurs.

Additionally, we need to have analytics team start gathering reports exclusively on 404 page.

5 Suggestive links placeholder

This is a placeholder to display links that can prove helpful to user based on the assumptive calculation on what got the user to this page.

For eg: user might have clicked a "Deals" link in one of our partner sites and that page might have been updated, moved or deleted. So, based on "deals" we can push suggested links here that are related to deals.

To discuss whether to show homepage & previous page link or not & on the possibility of automated reports & suggestive links.

We accept debit cards and ATM cards (also called check cards or bank cards). You can use your PIN with these cards if they are enabled for the use of PIN online (for billing address in the U.S., Puerto Rico, and the U.S. Virgin Islands).

In certain cases, as a security measure, customers who purchase tickets (either for themselves or for another person/a third party) using a credit card with a billing address in Latin America or the Caribbean (except Puerto Rico and U.S. Virgin Islands) may have to go to an AA ticket office before travel begins, or to the airport (where the itinerary is originating) on the date of travel, to sign the sales voucher as payment acceptance so that the passenger can board the flight. Review the Latin America and Caribbean Local Purchase Conditions for third parties.

TIAA CREF, 2012

About the Project:

Members of the digital team embarked on an effort to gain insight into the pain points and needs of the end user of internal and external systems in order to add the voice of the user to the requirements gathering process for the Pension Transformation project. I lead the effort in building the UX as well as the look and feel for the "Loans" & "Distributions" section of the project. I also volunteered for few internal web projects.

Notes

This is the landing page wireframe - from Home > Plans > Loans Summary (this path might change)

Links on the "TAKE ACTION" container or the SEARCH reveal will bring this same page but with records concerned to that particular link. Title will be added to the page accordingly. It can wireframe it once we decide on this global page)

This same page can also be surfaced if the user clicks on ALERT link on the homepage.

Alerts

You have 2 loans pending your approval.

Contributions for 1 list is overdue.

Thoughts & Concerns

1) Help bubble next to "take action?"

2) Do we need to show total outstanding loan and amount?

3) Assumption: Maintain and monitor will take the user to already existing concerned pages.

Notes

This is the landing page wireframe - when a plan sponsor logs in & clicks the alert message link that says something like "You have 2 loans pending for approval".

Thoughts & Concerns

1) Should we showcase "Outstanding loans" in the alerts instead of showing it by each status?

Alerts

You have 2 loans pending your approval.

Contributions for 1 list is overdue.

For multiple statuses, the alert list will be a lengthy one.

2) If decided to go by each status, clicking on one of them, for e.g. "You have 2 loans pending your approval" will take them directly to the pending approval page - and the "Pending Approval" link will be bold/active.

3) Action title

4) Breadcrumbs can be added once the sitemap is sorted out for this page.

Copy/text used in this wireframe are just placeholder and will be changed

Refer to next page for "documents under review" usecase.

Model 3185 - Source 6

The screenshot shows the 'View Loan Request' page for Model 3185. It has a similar layout to Model 3982, but with a different status indicator for the highlighted request for Participant, Dustin.

The detailed view for Participant, Dustin, shows the following information:

- Amount Requested:** \$75,000
- Amount Available:** \$75,000
- No. of Outstanding Loans:** 0
- Plan Rules:** Please make sure to check if this request is in compliance with the plan rules.
- Participant Details:** Name: Participant, Dustin; Address: 255 W MLK Jr Blvd, Charlotte NC 28202; Email: dustin.participant@universityname.edu; SSN: XX-XX-1234; Date of Birth: 01/01/1965; Gender: Female; Age: 59; Employment Status: Active; Highly Compensated: Yes; Hire Date: 00/00/0000; Termination date: 00/00/0000; Marital Status: Married; Source: 457B Employer; Employer Match: Vesting: 100%.
- Loan Details:** Plan Name: ABC University 403 Defined Contribution Retirement Plan (111110); Request Date: 00/00/0000; Loan Type: PAL; Loan Reason: Home Renovation; Repayment Amount: \$132; Repayment Frequency: Monthly; Repayment Method: ACH.
- Loan Request Documents:** Application Form (PDF) - Received; Spousal Waiver (PDF) - Received; Proof of home ownership (PDF) - Received.

An attention alert is shown at the top of the container:

ATTENTION
Please check below and take necessary action before approving this loan.
• This request contains money in an undefined source (source 6). Please identify & update the source of this money.

The 'Un-identified Source' dropdown menu is open, showing options: Select, Employer, Employee Pre-Tax, Employee After-Tax, Rollover. The 'Update' button is visible at the bottom right.

We push an alert on the top of the container.

Show un-identified source field for "source 6" use case only.

Go to next page to see what happens if plan sponsor selects an un-identified source and clicks on "Update" button.

Developer success story

Terapeak

With Terapeak, eBay sellers can access the research they need to create successful listings, gauge performance, understand competition and respond immediately to shifts in the market. "Sellers use Terapeak to sell smarter," says Andrew Sukow. "If sellers sign up for the service, they gain access to information their competition doesn't want them to know." [Read story »](#)

Keynotes

eBay is thrilled to host some of the top eCommerce business and technology leaders at DevCon 2010. We look forward to providing attendees excellent topics such as eCommerce business and technology trends, an inside peek at technology innovation at eBay as well as application development. This year's lineup includes thought leaders from Intel, Microsoft, Gartner Group and Research in Motion, as well as internal eBay and PayPal spokespeople to provide a look into the future of eCommerce.

Wednesday June 09, 2010

JOHN DONAHOE
President and CEO, eBay

John Donahoe became President and CEO of eBay Inc. on March 31, 2008. In this role, John has global responsibility for growing each of the company's business units, which include eBay Marketplaces, PayPal and Skype.

John came to eBay in February 2005 as President of eBay Marketplaces, responsible for all elements of eBay's global ecommerce businesses. In this role, he focused on expanding eBay's core business, which accounts for a large percentage of the company's revenues. John also oversaw a number of strategic acquisitions, including Shopping.com and StubHub, and classifieds sites, such as Gumtree and LoQuo.

During the three years he served as President of Marketplaces, revenues and profits for this division doubled. Prior to eBay, John spent more than 20 years at Bain & Company, a worldwide consulting firm based in Boston. Starting as an Associate Consultant, John rose to become the firm's CEO, where he oversaw Bain's 30 offices and 3,000 employees.

In addition to serving on the Board of Directors of eBay Inc. and Intel Corporation, John is also on the Board of Trustees of Dartmouth College.

John received a Bachelor of Arts in Economics from Dartmouth College and an MBA from the Stanford Graduate School of Business.

LORRIE NORRINGTON
President, eBay Marketplaces

Lorrie has overall responsibility for eBay Marketplaces, a global business unit that contributes a significant portion of eBay Inc.'s total revenue.

Before becoming president of eBay Marketplaces in July 2008, Lorrie had been responsible for the North America business unit, global technology, and global customer service as head of Marketplaces Operations, a position she assumed in January 2008. Prior to this role, she was president of eBay International, overseeing the strategic and financial planning, marketing, operations, product development and business development for eBay's international businesses, including eBay's network of sites in Europe and Asia Pacific.

Lorrie started her career at eBay in June 2005, when she joined the company as president and CEO of Shopping.com, eBay's online comparison shopping business. Prior to Shopping.com, Lorrie spent four years at Intuit Inc., where she first served as Intuit's executive vice president of small businesses and personal finance, leading the company's QuickBooks and Quicken brands. She then was a member of the office of the CEO, responsible for operations, verticals and all non-US businesses.

Buy your Apple iPad on eBay!

Wi-Fi : A full web experience powered by wireless hotspots
 Wi-Fi + 3G : Connectivity no matter where you are in the world!*

Be sure to [download](#) the eBay for iPad app! A new way to shop on eBay.

Interface

Built on the same intuitive touch-screen technology as the iPhone, the iPad delivers a more refined interface tailored for games, productivity applications, and everything in between.

Connectivity

Whether you're at the office or on the road, there's an iPad for you. All models are equipped with 802.11n wireless capabilities, with select models having 3G data access to ensure you have connectivity no matter where you are.

Productivity

Whether you're working from the road or your couch, the iPad was designed with productivity in mind. The iWorks suite has been completely redesigned for the iPad, taking advantage of the Multi-Touch screen to create brilliant presentations, documents, and spreadsheets.

Horsepower

Apple's revolutionary A4 chip with its low power consumption and integrated graphics processor create a computing synergy witnessed by snappy interactions and stunning visual displays.

Graphics

Coupling the most advanced display technology and the latest in low-power CPU/GPU combinations, Apple has created one of the most beautiful and visually pleasing device interactions on the market. Using IPS (in-plane switching) technology, the display is viewable at any angle, day or night.

Applications

Need to check sports scores? How about the latest ski report? Taking advantage of the same AppStore which powers the iPhone, there's literally an application for everything!

eBay Selling iPhone App Demo

See Video

Key features and Questions

With the eBay Selling app you can:

- List items using your iPhone
- Use your iPhone's camera to add pictures to your listing
- Research sales trends on eBay
- Search for items and list similar items for sale
- Use eBay's product catalog to easily list items
- View the status of your items

Want to sell that item you don't need? Use your iPhone's camera to take its picture and quickly list it on eBay. The eBay Selling app makes listing items on eBay quick and easy.

Use eBay's extensive product catalog to help you list similar items. The research feature uses eBay sales trends to help you set the price for your item. To list your item, fill-in a simple form with listing details, attach photos from your iPhone album and confirm your listing. You can also track your listings and selling activity from this app.

This is one app every eBay seller must have.

Listing promotion! For a limited time, when you use the eBay iPhone Selling app to list an item, you will not be charged a Scheduled Listing fee and you will be able to add up to four pictures to your listing without any charge. This promotion is only available to sellers on the U.S. www.ebay.com site and certain restrictions apply.

eBay Selling App Demo

*** Promotion Period:** This promotion starts on Monday, March 22, 2010 at 00:00:01 PDT (12:00 AM plus one second) and will end on Friday, April 30, 2010 at 23:59:59 PDT (11:59 PM plus 59 seconds).

Eligibility: Only sellers using the iPhone Selling app to list items during the Promotion Period on the U.S. www.ebay.com website are eligible.

Promotional Fees: You will not be charged a Scheduled Listing fee or a picture hosting fee for up to four pictures for Auction-style and Fixed Price items listed via the iPhone Selling app during the Promotion Period. The promotional rate will not be shown during the listing process. Instead, the discount will be reflected in the "View Account Status" section in My eBay, as well as in your next invoice.

Exclusions: The promotional rates do not apply to listings with a start date prior to Monday, March 22, 2010 - including those listings revised during the Promotion Period. Additionally, the promotional rates will not apply to listings scheduled to start after the Promotion Period. All other fees including without limitation, Final Value Fees, Gallery Plus, Reserve Listing fee, Subtitle, etc. will still be charged.

Available on the iPhone App Store

Key Features

- Buyer alerts:** Stay up to date on the status of your auctions and watched items with timely alerts.
- My eBay activity:** Dashboard view of all eBay activity with quick access to the details.
- Sharing:** Share items on your favorite social network.
- eBay Messages:** View and respond to your eBay messages.
- eBay Feedback:** Leave feedback scores and comments while you are on the go.
- Paying with PayPal:** Pay for your transactions right from your phone using the convenience of PayPal.

...and much more!

With the eBay iPhone app eBay members can search, buy, pay, and check their activity and status where ever they are.

With alerts, buyers are notified of status changes and updates so they can put in that last minute bid on a hard-to-find item. In addition, sellers can check the status of their sales. With the eBay app eBay members can act on time-sensitive information on the spot without a computer.

You can also manage your eBay account and tasks whether it's leaving feedback, responding to messages, or checking out the Daily Deals. eBay is open for business anytime, anywhere on the iPhone and iPod Touch.

Key Features

What can the StubHub app do?

- Great for last minute planners—app showcases upcoming (7 or 10 days) sports, concert & theater events based on your location so you never miss that event you come to last town.
- Ability to search for any event in any city.
- Shows number of tickets available.
- Quantity and Pricing Filters to allow for easy narrowing.
- Sharing functionality to email, Facebook and Twitter, allowing fans to pass along interesting event information to help with planning among friends/family.
- Integration with iTunes, so you can easily check when the artists in your iTunes library are coming to town.
- Choose your seats using our seat maps and detailed ticket listings.
- Shop with confidence, backed by the StubHub FanProtect™ Guarantee.
 - When available, get tickets right up through the day of the event.
 - Location settings allow you to switch from your current location to any location desired.

The StubHub iPhone and iPod Touch application provides fans with the freedom to access and search the world's largest inventory of secondary market sporting, concert and theater tickets—and make purchases—anytime, anywhere.

The StubHub app gives you the ability to search for events at your favorite venue or by your favorite team or band. You can narrow your results by quantity and pricing. Once you have found the perfect event for a day or evening out, you can share it with your friends via email, Facebook or Twitter.

Download the StubHub app to get the unrivaled selection and service of the world's largest fan-to-fan ticket marketplace right at your fingertips.

We're interested in a balance between protecting fishermen's traditional way of life and the impact on the fisheries. When I do presentations about Seafood Watch, I recommend that people choose three species on the green list and get to know how to cook and enjoy them and buy them in season.

G Coupe Awarded 2008 Best Resale Value Award by Kelley Blue Book's kbb.com

Kelley Blue Book's kbb.com, a leading provider of new- and used-vehicle information, has awarded the 2008 G Coupe its 2008 Best Resale Value Award. In addition to winning a 2008 Best Resale Value Award in the Coupe category, the G37 also is the only luxury vehicle to win a 2008 Best Resale Value Award Top 10 from Kelley Blue Book's kbb.com.

AUTOMOBILE Magazine All-Star

Deemed the choice "for those partial to instant gratification," the G37 Coupe has been named an All-Star.

Owners Rate Infiniti #1 in Vehicle Satisfaction

Infiniti owners are the most satisfied with their vehicles over buyers of any other luxury brand, according to the 2007 vehicle satisfaction data collected by AutoPacific, whose survey objectively measures many aspects of vehicle ownership, including vehicle operation, comfort, safety and overall purchase/dealership experience(s).

Ward's 10 Best Engines Award for 14th Straight Year

Hailed as the "definitive V-6 benchmark," the VQ V6 engine in the Infiniti G has been named one of Ward's 10 Best Engines every year they've awarded it. 2008 marks an unprecedented 14th year in a row(2).

Purchase vs. Lease

[Financing Options](#) | [Purchase FAQs](#) | [Lease FAQs](#)

As an Infiniti client, you have a wide range of financing options and benefits at your disposal. Purchasing or leasing each offers its own individual benefits. Choosing one will depend on your particular needs and desires.

Why purchase an Infiniti?

Ownership Equity
At the completion of your payment schedule, you own your Infiniti. You can keep driving for as long as you desire without any further payments, or choose to sell or trade at any time.

Flexibility
Leasing requires that you calculate in advance how many miles you will drive each year. Ownership allows you to drive as much as you like, as far as you desire.

Freedom
Ownership gives you the power to maintain and customize the vehicle however best suits your life or your personal sense of style.

[Learn more about purchasing](#)

Why lease an Infiniti?

Lower Payments
Because you're only purchasing the right to use a vehicle for a period of time, your financial responsibility and your monthly payments may be reduced significantly.

Hazard-Free Driving
Because most leases last for 2-3 years, your vehicle generally provides warranty protection for as long as you drive it(1).

True Convenience
When a lease expires, you simply turn your vehicle in and pay off any remaining fees (such as for excess mileage or wear and tear) and taxes. If you'd prefer not to part with your Infiniti at lease-end, you can also take the opportunity to purchase it at a predetermined price. In either case, there's no need for you to sell it or trade it in.

Introducing VJO: Bringing the best of Java™ and JavaScript™ together for developers

Use Java, JavaScript or both

No matter you use Java, Javascript or in mixed mode, VJO provides you with a consistent set of language features you are familiar with (such as generics and mixin), a complete framework including Java2JS at your disposal and help you reduce overall maintenance cost.

An IDE for Active Programming

VJO's IDE and Active Programming enable developers to author and debug in complete round trips without ever leaving developer's environment or redeploying any code. Developers can modify code in the IDE and the changes will automatically be reflected on the server as well as clients in other browsers. Browser events from one browser are automatically synchronized to other browsers.

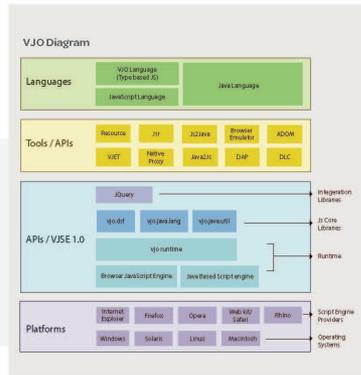

Lightweight cross browser JavaScript framework for Java developers

With VJO's built-in integration capability, developers can easily integrate best of breed 3rd party software to achieve maximum productivity. Using VJO's JSR proxy, a Java developer can program in Java and taking full advantage the power of any 3rd party software such as JQuery, a JavaScript client library without writing a single line of JavaScript. What's more? Developer can modify Java code in IDE and watch the changes to JQuery in the browser.

About eBay Developers Program

The award-winning eBay Developers Program, has more than 87,000 members who have created over 13,000 applications for eBay buyers and sellers.

You'll also be plugging into a lively community of e-commerce developers with access to 125+ API calls, in-depth documentation, blog updates, active technical forums, a bi-weekly email newsletter filled with tips and tricks, and an open invitation to the must-attend eBay Developers Conference.

Find out more:
<http://developer.ebay.com/javaone>

The gap is gone. VJO is next generation development technology, bridging the gap between Java and JavaScript development and allowing developers to author sophisticated client and server applications. An IDE for Active Programming provides code assistance, refactoring, debugging across multiple browsers simultaneously... all without ever leaving your development environment or re-deploying code.

Features and benefits

- Familiar JavaScript syntax, Java-like semantics and developer-friendly code generation
- Java language integration, active programming and native proxy support
- Application model neutral and type-safe
- Namespace support allowing multiple runtimes to co-exist resource management (scripts, CSS, images, localized content, etc.) and authoring time error check
- Built-in 3rd party JS library integration, quality engineering support
- Support AJAX with codegen and direct web remoting
- Browser portable, robust and optimized for speed
- An Eclipse based IDE for authoring and debugging VJO
- Object-oriented dynamic programming construct:
 - Generics
 - Interface
 - Static initialization
 - Enumeration
 - Dynamic type definition
 - Function reference
 - Object literal
 - Mixin

eBay Selling Manager Applications^{BETA}

Hundreds of thousands of professional sellers, waiting for you!

eBay is opening up even further to developers who want to make money. eBay Selling Manager Applications is the next generation of the open eBay platform, allowing developers to embed their applications directly in Selling Manager where hundreds of thousands of sellers manage their business.

Plug In To Our API

Your application will have exclusive access to an extended set of 26 newly-released APIs tailored to our professional sellers. From buying to selling, searching to merchandising, you can do it all.

Be Seen on eBay.com

Our new application directory is where professional sellers will be able to search, browse, and subscribe to all Selling Manager Applications.

Make Money With Your App

Bring your application to millions of active and professional sellers included in eBay's 84 million active members. Whether it's through a one-time sale or recurring subscription, you can bring your ingenuity directly into the eBay selling experience, living where our sellers do their business.

Get Started Fast

Already developed the killer solution for a market outside of eBay? No problem. You can keep your databases and business logic intact when you make it available to eBay sellers. Code in any language you like, it's up to you.

About eBay Developers Program
The award-winning eBay Developers Program, has more than 92,000 members who have created over 13,000 applications for eBay buyers and sellers.

You'll also be plugging into a lively community of e-commerce developers with access to 125+ API calls, in-depth documentation, blog updates, active technical forums, a bi-weekly email newsletter filled with tips and tricks, and an open invitation to the must-attend eBay Developers Conference.

The poster features a vibrant, abstract background of overlapping triangles in shades of blue, green, and yellow, with a bright sun-like motif in the upper left. The central text "GROW WITH US!" is prominently displayed in a bold, dark blue font. Below this, a stylized city skyline is composed of numerous small, upward-pointing arrows of varying heights, suggesting growth and progress. Three green trees are positioned at the base of the skyline. The bottom section of the poster is a solid blue gradient, containing the event details and the DevCon 2010 logo.
